About Conference

'You can tell the condition of a nation by looking at the status of its women'. This is a famous quote by Jawaharlal Nehru regarding women. The status of women depicts the social, economic and mental condition of a particular nation. Women have been regarded as a symbol of spirituality in our scriptures. The spread of education and self-consciousness among women has led to their progress over the period. Women of today are empowered and they are gaining advancements and success in each and every field. True female liberty is only achievable when people shift their restrictive attitudes and mindsets regarding women. The very objective of this multidisciplinary conference is to highlight the present status of women in India and to discuss the probable issues regarding women empowerment.
